

Workshop  
**'Statistical and dynamical models  
in biology and medicine'**

October 27 – 28, 2011; University Göttingen

This workshop intends to bring together researchers from different research areas such as bioinformatics, biostatistics and systems biology, who are interested in modeling and analysis of biological systems or in the development of statistical methods with applications in biology and medicine.

Confirmed speakers:

Arndt von Haeseler, University Vienna

Jelle Goeman, Leiden University

Dominik Jancing, MPI Biological Cybernetics, Tübingen

**Further information:**
